

**REMARKS**

Claims 1-23 are pending in this application. Applicant gratefully acknowledges that claims 1-23 are allowed. By this Amendment, claims 6, 15, 17 and 20 are amended to improve clarity and to correct minor informalities. No new matter is added by any of these amendments.

Entry of this amendment is proper under 37 CFR §1.312 because this Amendment is filed to improve clarity and to correct minor informalities. In particular, the following changes are made:

(1) claim 6 is amended at line 3 to replace “comprising” with --including--;

(2) claim 15 is amended at line 6 to delete “further”;

(3) claim 17 is amended (a) at line 3 to replace “circuits having electro-optical elements, each of the plurality of unit circuits comprises:” with --circuits, each of the plurality of unit circuits including: an electro-optical element--, (b) at line 4 to replace “the conduction state” with --a conduction state--, (c) at line 5 to replace “sent through one corresponding scanning line” with --supplied through one scanning line--, (d) at line 7 to replace “sent” with --supplied--, (e) at line 9 to replace “the continuity state” with --a conduction state-- and “the amount” with --an amount--, (f) at line 10 to replace “that supplies current having a current level” with --and supplies a current level--, (g) at line 11 to replace “a conduction state” with --the conduction state--; and (h) at line 13 to replace “transfer” with --supply--; and

It is believed that these amendments do not alter the scope or patentability of the claims, and thus entry is purely ministerial.
